Profile

Master's degree holder in Artificial Intelligence, with an academic background in Electronics, Electrical Engineering, and Automation. I have knowledge of artificial intelligence, image processing, and web development, including HTML, CSS, JavaScript, React, and Node.js. Through practical projects, I am developing my skills in designing and building web applications. Motivated to learn and grow, I am particularly interested in integrating AI technologies and generative AI tools into software development. I am seeking an opportunity to contribute to innovative projects and further develop my technical skills as a Junior AI Full Stack Engineer.

Experience

Lecturer in Industrial Automation 09/2025 - Present
Higher Institute of Technological Studies Tunisia
- Prepared and attended theoretical and practical courses.
- Conducted and supervised laboratory and practical sessions (TPs)
- Assisted in preparing and organizing exainations
- Participated in exam supervision and grading

Web Development – Practical Projects 11/2025 - 10/2026
Independent Projects Tunisia
- Developed responsive web applications using JavaScript and React.
- Built and tested projects including Pizza, Travel and Banking applications.
- Used Git and GitHub for version control and project management.

Robotics Trainer
Scientific club SY future of Sousse 12/2022 - 03/2023 Tunisia
- Prepare the content to be taught to students
- Build a line follower robot
- Make simple assemblies with the Arduino board

Robotics Trainer 10/2021 - 01/2022
El-Khawarizmi Association of Kebili Tunisia
- Conducted robotics workshops using Arduino, sensors, motors and programming.
- Designed practical projects including obstacle-detection and line-following robots.

Education

Master's Degree in Artificial Intelligence 2018
National School of Engineers of Sousse (ENISo) Tunisia
- Master's thesis: "Characterization and segmentation of breast tissues using multifractal and wavelet features."
- Focus: Artificial Intelligence, medical image processing, image analysis and segmentation.

Bachelor's Degree in Electronics, Electrical Engineering and Automation 2015
Higher Institute of Industrial Systems of Gabès Tunisia
- Bachelor's thesis: "Navigation systems for blind or visually impaired people"
- Focus: electronics, electrical engineering, automation and industrial systems, sensors, Arduino.

Web Development Skills & Projects

Frontend: HTML5, CSS3, JavaScript, React, Node.js, Express.js, REST APIs, Responsive Design
Tools: Git, GitHub, MongoDB, VS Code

Pizza Hause Application
React / JavaScript / CSS
• Developed a responsive pizza website with a modern design and interactive menu.

Travel Explorer Application
React / JavaScript / CSS
• Built a web application for presenting and managing travel-related information.

Banking Web Application
JavaScript / CSS / HTML
• Created a banking interface with money transfer functionality.

Technical Skills

Artificial Intelligence: Machine Learning, Deep Learning, Computer Vision, Medical Image Processing, Image Segmentation, Python, MATLAB
Other: Arduino, Electronics, Automation

Training

Web Development Training | Online | 11/2025 - 10/2026
FIDLE – Deep Learning Training | CNRS / Université Grenoble Alpes / MIAI | 11/2023 - 02/2024

Languages

Arabic: Native **French:** B2 **German:** B2 **English:** B1

Personal Strengths

Problem-solving • Teamwork • Communication • Reliability • Adaptability
